

# RACO® RETRO-RING™

## Life Safety Appliances

### Application

- RACO RETRO-RING is used to position a 4" square steel junction box in a sheet rock covered wall cavity.
- RACO 205RAC is used in old work, life safety appliance installations

### Features

- Allows 4" square box to be quickly and easily mounted in old work application
- Accommodates any depth, 4" square box
- Works in 3/8" to 1-1/2" thick, wall or ceiling applications
- Small footprint is easily covered by most popular life safety devices (any appliance greater than 4-13/32" W x 4-3/4" H)
- Steel old work wings allow for secure mounting of box and device to wall
- Includes one wall template per carton for easy trace-&-cut-out
- Made from durable, .039" thick galvanized steel

# RACO® RETRO-RING™

## One or Two-Devices, Power/Data

### Application

- RACO RETRO-RING is used to position a 4" square steel junction box in a sheet rock covered wall cavity. RACO 206RAC is used in old work installations where one or two devices are required

### Features

- Allows 4" square box to be quickly and easily mounted in old work application
- Accommodates any depth, 4" square box
- One or two devices mount directly to RETRO-RING
- Works in 3/8" to 1-1/2" thick, wall or ceiling applications
- Small footprint is easily covered by wall plate (any wall plate greater than 4-13/32" W x 4-3/4" H)
- Steel old work wings allow for secure mounting of box and devices to wall
- Includes one wall template per carton for easy trace-&-cut-out
- Design allows for installation of steel low voltage partition for power/data applications
- Made from durable, .039" thick galvanized steel
- Can be used to mount low voltage devices without a box
