# Leatherman Wave+ Multi-Tool and Black Nylon Sheath (Stainless, Clamshell Packaging)
832532

Leatherman Wave Overview

The Leatherman Wave Multi-Tool features stainless-steel construction with a stainless finish and 17 tools including the following: two outside accessible 2.9" 420HC straight/serrated blades, two sets of pliers, spring-action scissors, medium screwdriver, two files, double-sided #1-2 phillips/flat tip bits, and replaceable regular/hard-wire cutters. There's also a push/pull saw and an 8" ruler, as well as bottle and can openers. The nylon sheath is made from ballistic material and features a tight-closing metal rivet snap and the Leatherman logo.

The Wave+ is assembled in the USA and comes in clamshell packaging.
