# **Concrete Rings**

#### **APPLICATIONS**

- Used with poured deck (floor) in highrise construction
- These boxes are installed on wooden or steel concrete forms
- · After the forms are removed, the box is flush with the concrete

#### **FEATURES**

- Flat sides provide excellent contact for locknuts
- External ears are used to nail the ring to the wood form
- Top cover is removable for before-pour work
- · Ears on inside of box are for fixtures
- Waxed fixture ears prevent concrete from interfering with the threads
- · A variety of covers are available
