Innovative Features

Wireless Interconnect
Bluetooth BLE communication between alarms and Wi-Fi to connect to your Apple smart phone or tablet. 50' typical between alarms with a home.

Interconnects with all BRK/First Alert Hardwired Alarms
Reliable and secure Bluetooth BLE communication between alarms.

10YR CO Sensor/10YR Alarm Life
10YR Battery/Battery backup
10 year CO sensor and alarm life. Sealed, tamper proof batteries last 10 years.

No Battery Replacements

Multi-Color Indicator Ring
Multi-color light ring provides visual indication of various alarm states. Green: Normal or completed operation; Blue: Voice prompts or Pairing; Red: Alarm/Warning; Amber: Malfunction/End of Life; White: Nightlight.
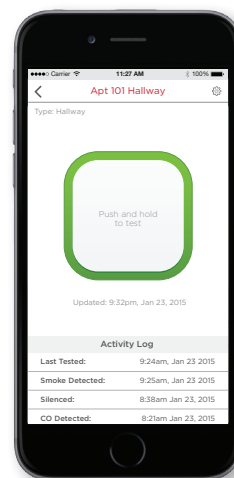

Voice Warning with Location
Exclusive! Programmable with up to 11 locations (ex. "basement"). When alarm sounds (if programmed for basement), it will say, "Warning, Evacuate, Smoke in Basement". If other Onelink Wi-Fi alarms are located throughout the house they will also signal, "Warning, Evacuate, Smoke in Basement".

Flood Mesh Network Communication
2-way communication format that sends, receives and re-sends the alarm signals providing a more reliable network

Free App/Activity Log
App provides real time notification and history logging of all events by alarm so you can easily identify condition and troubleshoot incidents such as identifying initiating alarm or low battery condition.

Other Standard Features
Also includes Silence (Alarm and Low Battery), Photoelectric Smoke Sensor, Electrochemical CO Sensor, Spread Spectrum Horn Tone (easier heard by elderly), Smart Interconnect, Optipath 360 Technology, Intelligent Sensing Technology.

Available SKU's

AC10-500B - Hardwired Wi-Fi Smoke + CO Alarm
Meets new construction building codes. Use as a bridge unit to expand existing BRK/FirstAlert hardwired interconnected alarms.

DC10-500B - 10YR Battery Wi-Fi Smoke + CO Alarm
Easily add Smoke/CO Combo alarms outside bedrooms and on every level of the home to create a wireless safety network.
