

# Lutron's Most Popular Dimmer is Now Smart

Introducing the Diva Smart Dimmer and the Claro Smart Switch – a new look for the Caséta family

## Intuitive design that offers simplicity, style, and control

- Additional designer style to coordinate with your customers' existing paddle switches
- Signature Diva and Claro lighting controls with built-in smart technology
- Easy-to-install with wired and wireless 3-way options
- Works with existing Caséta smart lighting controls

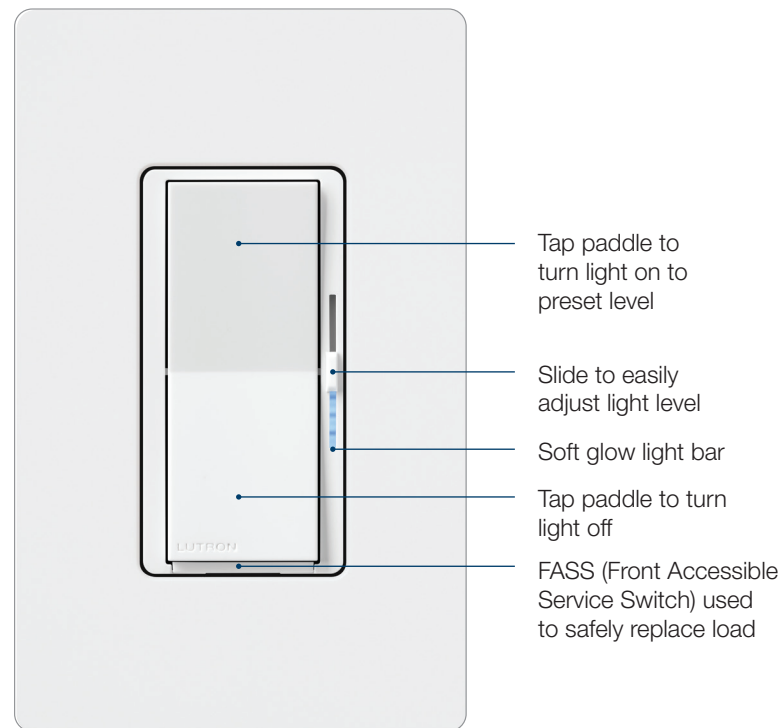

## The Caséta Advantage — Comfort, Control, and Peace of Mind

- Customized schedules allow customers to always come back to a well-lit home
- Personalized scene control to set the mood for any occasion
- Multiple points of control from virtually anywhere — remote, app, switch, or voice

Most connected – works with more smart-home devices than any other smart lighting brand

# Save time and money

## Add a second switch almost anywhere

Skip cutting the wall and pulling wires to give your customers a second switch where one doesn't exist. Use a wireless solution instead. It's a simple and easy way to add a switch to a stairway, hallway, or wherever your customer needs.

### Mount a Pico remote for wireless 3-way control in just 3 steps:

#### Step 1

Replace existing switch with the wired smart dimmer.

Pico remote sold separately.

#### Step 2

Connect the wireless Pico smart remote to the wired smart dimmer.

#### Step 3

Mount the Pico smart remote and wallplate to the wall, so that it looks and works like a switch.
