Decora Smart Wi-Fi Fan Speed Controller

The Decora Smart Wi-Fi Fan Speed Controller allows you to select one of 4 fan speeds or turn your fan off from a smartphone or tablet even when you're away from home. Use the built-in scheduling to control your fan at specific times of the day, and at sunrise or sunset.

Control connected fans from anywhere using Wi-Fi, an internet connection and the free My Leviton app; that is all you need, no hub required. Simplify control of the residence – schedule connected devices to turn on/off at specific times or based on sunrise/sunset, easily group smart products into rooms, and create scenes to activate multiple lights, fans, and loads at once. Utilize DD00R for 3-way installations.
