

MINIATURE RECESSED

The Miniature Recessed family of luminaires offers five styles of fixtures including directional, eyeball, gimbal and glass enclosed fixtures for a soft warm light. Employing either a JC-20 or MR-11 lamp, each fixture offers a strong light source

in a tiny package that uses minimal space. Perfect for under kitchen cabinets, in cabinets, curios and etageres, above mirrors for a theatrical effect, and ideal for shadowboxes and dramatic retail displays.

- Recessed fixture for use in shelving, cabinets and displays
- Shallow installation depth ideal for use in tight spaces
- Mounts quickly with butterfly clips
- Requires a Class 2 transformer to be ordered separately
- Housing included
