15A GFPE 2-Pole Branch Circuit Breaker

Branch Circuit Breaker, GFPE 2-Pole 15A 120/240V, 10KA Interrupt Rating

Leviton Circuit Breakers provide overload and short-circuit protection and feature an all plug-on design. GFPE circuit breakers provide protection of equipment from damaging line-to-ground fault currents. All hot and neutral wires terminate at custom lugs in the panel, not at the circuit breaker*, so the entire panel can be wired at rough-in without circuit breakers installed. Branch circuit breakers are easily plugged-on at final installation. Circuit breakers also feature color indicators in the handle to easily see operational status at-a-glance.

**For applications up to 60A when using copper wire; or 50A when using aluminum wire*

Technical Information

Product Features

Operating Temperature: -40°C to 85°C

Smart: No

Warranty: 10-Year Limited

Electrical Specifications

Amperage: 15 A

Pole: 2

Short Circuit Current Rating: 10 KA

Type: GFPE

Voltage: 120/240 VAC

Standards & Certifications

CSA-C22.2 No. 5-02: Yes

EMC Compatibility: Yes

FCC: Yes

RoHS: Yes

UL 489: Molded Case Circuit Breakers
