Fast-Adapt™ Chuck

M.K. Morse's Fast-Adapt™ Quick Change Chucks convert your three-jaw chuck into a quick change chuck. The one-handed loading and unloading system allows fast insertion and removal of 1/4", 3/8" and 7/16" hex shank power tool accessories fitted with standard power groove hex shanks. The M.K. Morse Fast-Adapt Quick Change Chucks are available in two styles; one that accepts 1/4" hex shanks and our exclusive dual chuck that accepts either 3/8" or 7/16" hex shanks.
