

The SELMTG60R5SD is an Architectural grade, recessed, T-Grid mounted emergency light. The 300 lumen LED source will cover up to 60 feet resulting in less total fixtures required. Also, the adjustable recessed heads eliminate the traditional unsightly emergency fixture look. The SELMTG60R5SD series has 5 watts of remote capacity which can create an additional 50 feet of emergency egress coverage. This product is UL924 listed and meets both City of Chicago and NYC construction requirements.

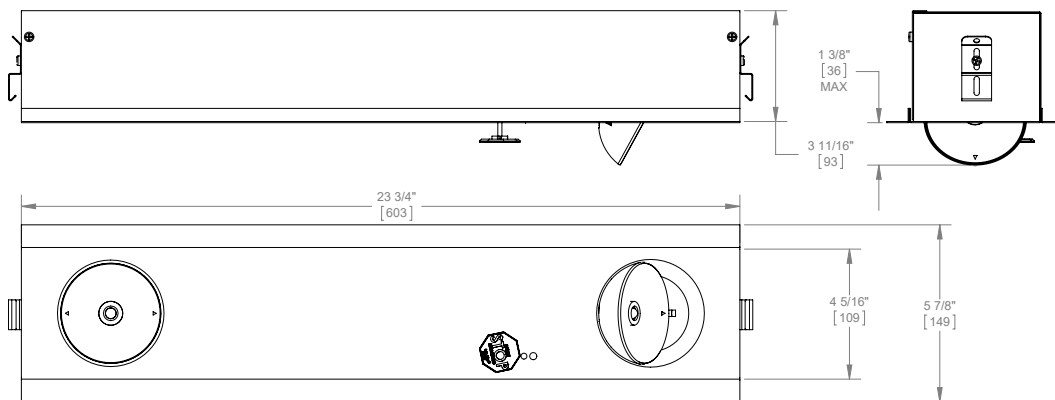

SELMTG
