

### Heating and forced-air combined

Why not add this european-style unit to your bathroom wall. The **SILBH2060** enables you to warm your bathroom before taking a bath or a shower.

It features a base load of 1200 W to which 800 W can be added on request when using the timer. The fan heater may be equipped with a practical towel bar holder. Therefore, your towels could now be warm and dry when you want it the most!

Very simple installation.

You can't ask for anything more!

### {features}
